FROM THE DATABASE COORDINATOR

Thank you to everyone who made **DataFest 2009** and the Fall Conference such a success! Kudos go out to the DataFest committee and other volunteers, the GODORT people who gave us wonderful presentations on free resources, the vendors who demonstrated their wares and provided the yummy refreshments, and to the attendees – it wouldn't be an event without all 181 of you! If you did attend the DataFest, **please fill out the evaluation form: <http://www.tenn-share.org/EvalDF>**

Trials and discounts following up on the products from DataFest will be coming in the next issue, but for now check out these two vendors that weren't able to make it in person: **OptimalResume**, a resource for career help and job-seekers, and **World Trade Press**, a resource for international information and country reports.

Our free database this week is **BioMed Central**, which provides access to free STM journals.

DeAnne Luck, Tenn-Share Database Coordinator

WORLD TRADE PRESS

World Trade Press, a publisher of informational and educational products focusing on international trade, logistics, and country data, is offering free trials for the following resources:

Global Road Warrior: With in-depth coverage on 175 countries, Global Road Warrior is a **comprehensive cultural, business, and travel database**. From cultural stereotypes and superstitions, to social and business etiquette, to women's role in society - everything from dating rituals, holidays and festivals, to classic recipes for each country, and visa and passport information - Global Road Warrior provides a wide array of country information, all accessible in a fast, well-designed format. Users find it helpful for **college reports, school projects, business research, travel planning**, or simply satisfying their

curiosity.

AtoZ Maps Online includes **modern outline, political, thematic, topographic, scientific and animated maps**, as well as tens of thousands of antique maps of the world, individual countries, U.S. states, and U.S. towns and cities, in an array of digital formats unavailable anywhere else, which are especially useful for genealogical research. Additional features include country and state flag images and icons, geography crossword puzzles, geography lesson plans, interactive geography games, and 14 geography, cartography, earth science and other glossaries. The database also contains the entire **USGS 7.5 minute topographic quadrangle series** for the United States in a variety of digital formats.
