## Gorlet

Tenn-Share is working with Gorlet, a new company in the language learning software field, to provide TN libraries with access to their language learning product, Linkword. This product is being offered on an "Open Services Access" model, which basically allows libraries to pay whatever amount they think the product is worth. All the details are here: <http://www.tenn-share.org/node/540>

All you have to do to get access to this product is to sign-up here: <http://www.tenn-share.org/node/563>. Please have your IP range handy and the amount you want to pay in mind.

If you pay a minimum amount (outlined here: <http://www.tenn-share.org/node/542>), you can also receive bonus access to either one or two additional products from Gorlet, ESL (English as a Second Language) or Speed Reader X. This is a great opportunity to take advantage of. Please sign up! You won't get a much better deal than "name your own price!"

## Free Resource: Government Manual

The Government Manual is a central collection point for authentic and vital information on all major agencies. It provides public access to comprehensive and authoritative descriptions of the organizations, programs, and leadership of

the Federal government. The Manual also contains useful information about quasi-official agencies, international organizations with U.S. membership, and Federal boards, commissions, and committees. The "Sources of Information" headings list addresses and telephone numbers of each agency for employment, Government contracts, publications, films, and other services available to the public. In addition, the Manual contains agency organizational charts, definitions of commonly used Federal abbreviations and acronyms, and a detailed section on Federal agencies that have been terminated, transferred, or changed in name since March 1933.
